("the Company") to carry out a limited assurance engagement over Board of Director's assessment whether the Company has a process in place to comply with QFMA's law and regulations and other relevant applicable legislation and compliance with the Code as at 31 December 2021.

### **Responsibilities of the Board of Directors**

The Board of Directors of the Company is responsible for preparing the corporate governance report that covers at the minimum the requirements of Article 4 of the Code. The Board of Directors provided its 'Report on compliance with QFMA's law and regulations and other relevant legislation including the Code (the 'Statement')', which is shared with KPMG on 16 March 2022, which is to be included as part of the annual corporate governance report.

### **Our Responsibilities**

Our responsibility is to examine the Statement prepared by the Board of Directors and to issue a report thereon including an independent limited assurance conclusion based on the evidence obtained. We conducted our engagement in accordance with International Standard on Assurance Engagements (ISAE) 3000, *Assurance Engagements Other Than Audits or Reviews of Historical Financial Information* issued by the International Auditing and Assurance Standards Board. That standard requires that we plan and perform our procedures to obtain a meaningful level of assurance about whether the Assessment is fairly presented, in all material respects, in accordance with the Code, as the basis for our limited assurance conclusion.

We apply International Standard on Quality Control 1 and accordingly maintain a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

We have complied with the independence and other ethical requirements of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

The procedures selected depend on our understanding of the Company's compliance with the Code and other engagement circumstances, and our consideration of areas where material misstatements are likely to arise.

In obtaining an understanding of the Company's process for compliance with QFMA's laws and regulations and other relevant legislation, the Company's compliance with the Code and other engagement circumstances, we have considered the process used to prepare the Statement in order to design assurance procedures that are appropriate in the circumstances.

Our engagement included assessing the appropriateness of the Company's process for compliance with QFMA's law and regulations and other relevant legislation and the Company's compliance with the Code, and evaluating the appropriateness of the methods, policies and procedures, and models used in the preparation of the Statement.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

### **Our Responsibilities (continued)**

Our limited assurance procedures do not involve assessing the qualitative aspects or effectiveness of the procedures adopted by the Board of Directors to comply with the requirements of the Code.

The procedures performed over the Statement included, but were not limited to:

- examining the assessment completed by the Board of Directors to validate whether the Company has a process in place to comply with QFMA's law and regulations and other relevant legislation including the Code;
- examining the supporting evidence provided by the Board of Directors to validate the Company's compliance with the Code; and
- conducting additional procedures as deemed necessary to validate the Company's compliance with the Code (e.g. review governance policies, procedures and practices, etc.).

As part of this engagement, we have not performed any procedures by way of audit, review or verification of the Statement nor of the underlying records or other sources from which the Statement was extracted.

### **Inherent Limitations**

Non-financial performance information is subject to more inherent limitations than financial information, given the characteristics of the subject matter and the methods used for determining such information.

Because of the inherent limitations of certain qualitative criteria in the application of the relevant QFMA laws and relevant legislations including the Code, many of the procedures followed by entities to adopt governance and legal requirements depend on how the procedure, the interpretation of the objective of such procedure and the assessment whether the compliance procedure was implemented effectively, in certain cases may not maintain an audit trail.

### **Other information**

The other information comprises the information to be included in the Company's annual corporate governance report which are expected to be made available to us after the date of this report. The Statement and our limited assurance report thereon will be included in the corporate governance report. When we read the corporate governance report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the Board of Directors.

### **Characteristics and Limitations of the Statement**

The Statement is prepared to meet the common needs of a broad range of users and may not, therefore, include every aspect of the information that each individual user may consider important in its own particular environment.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.
